

Unauthorized Tree & Brush Cutting has damaged multiple areas of the parks and Paths. Cutting and removing logs from the association parks without approval is trespassing and damaging private property. This also causes safety hazards for other residents and additional costs for the association to remediate. If you're aware of who is doing this, please contact the [board@westhaventrails.org](mailto:board@westhaventrails.org) or Madison Police Department non-emergency line.

If you are interested in volunteering to assist with the cleanup of the woods and remediate the damage caused by recent cutting, please contact the Parks Committee at [parks@westhaventrails.org](mailto:parks@westhaventrails.org). – Thank you
